Unit 1: Mathematics and work				
CASE STUDIES				
1	To investigate the order of operations	1		
2	To investigate setting up a small business – part 1	5		
3	To investigate setting up a small business – part 2	10		
4	To collect and analyse customer feedback	15		
5	To decide how to price goods and services	20		
6	To cost your service	25		
7	To assess the cost of employing a person	30		
8	To investigate advertising your business	35		
9	To design a company logo and price office stationery	40		
10	To discuss profit	45		
11	To investigate cost, profit and VAT	50		
12	To consider income and expenditure	54		
13	To investigate PAYE and tax credits	59		
14	To investigate PRSI and USC	64		
15	To explore sources of funding and support for a new business	69		
16	To determine the cost of renting commercial premises	74		
17	To find a shop to rent	79		
18	To explore different types of employment	84		
19	To examine employment contracts	89		
20	To examine working on site, working from home and a hybrid of both	94		
21	Student-designed case study	99		
MODULE 4 KEY ASSIGNMENT				
	Sign-off sheet	104		

		Page	Done	Date
Revision of learning outcomes				
1	Module 1: Mathematics and planning	105		
2	Module 2: Mathematics and the world around me	110		
3	Module 3: Mathematics and life skills	115		
4	Module 4: Mathematics and work	119		
Revision of mathematical concepts and skills (MCS)				
1	General calculations 1	121		
2	General calculations 2	122		
3	Perimeter and area	123		
4	Surface area and volume	125		
5	Geometry	127		
6	Angles	129		
7	Order of operations	131		
8	Pythagoras' theorem	132		
9	Ratio and proportion	133		
10	Rounding	134		
11	Fractions, decimals and percentages	135		
12	Units of distance and time	136		
13	Graphs	137		
14	Algebra – evaluating expressions	139
