

CASE STUDIES	Page	Done	Date
Unit 1: Researching and planning			
1.1 To investigate how life expectancy in Ireland has changed over time	1		
1.2 To compare the rainfall in Limerick and Samara	5		
1.3 To find out which supermarket offers the best value for money	10		
1.4 To investigate the change in the height of students from 1st year to 4th year	15		
1.5 To compare this week's weather forecast for Dublin and Rome	20		
1.6 To determine the most popular type of student mobile phone	24		
1.7 To investigate the rate at which hot water cools in various containers	28		
1.8 To identify the most popular colour in a box of Smarties	33		
1.9 To investigate Apple's sales figures for three products	37		
1.10 To investigate and use a histogram	41		
1.11 To calculate the mean, mode, median and range of the number of red Skittles in a bag	45		
1.12 To examine how graphs can be misleading	50		
1.13 To select the best type of graph to represent your data	54		

CASE STUDIES	Page	Done	Date
Unit 2: Budgeting			
2.1 To prepare a budget for furnishing a child's bedroom	58		
2.2 To investigate the use of scale drawings	63		
2.3 To investigate floor covering options for a child's bedroom	67		
2.4 To investigate a playground design by measuring various shapes	71		
2.5 To design and budget for a mural for a child's bedroom using simple shapes	76		
2.6 To design and price the materials needed to make stage props	81		
2.7 To make a 3D cube from a 2D net	86		
2.8 To make a 3D rectangular box from a 2D net	90		
2.9 To continue the investigation of 3D shapes	94		
2.10 To create a class design with 3D shapes	98		
2.11 To explore the volume of regular shapes	101		
2.12 To investigate the nature of angles	106		
2.13 To investigate Pythagoras' theorem	111		
2.14 Student-designed case study	116
